

PAHOKEE WILL COME TO THE LAKE FOR FIGHT

"The Truly Distinguished Mind Prefers The Provinces."

Recent Operations

By Paul Hardin

I'm not a betting man. But I did lay a little wager a couple of weeks ago. I even gave odds. Two to one that there would be no war in Europe in August. To day it looks like I guessed right. I have a big notion to raise the odds to three to one for the month of September. (I might say that the wager was two Coca Cola to one.)

When I offer odds of three to one that there will be no war in September I am basing my guess on one little item I read in a news story. It said something about the German government being worried somewhat over the cost of keeping its men under arms. Well, my friends, if they are worrying now about the cost of keeping their men under arms doesn't that tell you they're too broke to stand the cost of war. Anyway, that's what I'm basing my guesswork on. There isn't a country in Europe that can afford a war. And nations just like individuals. There may be a lot of things they would like to do—but can't afford it.

I'm making another prediction. If the British government will just give Hitler half a chance to save his face through some sort of agreement that chap will call off his dogs.

A friend of mine said the other day that his father had taught him through the years to lay up a little something for a rainy day. "But," my friend said, "I sure hope it rains today."

Carmen Salvatore, member of the county school board, announced this week that the school in Glades will be touched up before there with paint before the starting of another term. Barney Whitman has been employed to add the beautifying touches to the various schools. Outside woodwork is being repainted to add to the attractiveness of Glades school buildings.

It sure looked natural Wednesday afternoon to see Frank Hobson on Laid Field with his crew of men busy planting the Blue Devil seeds. The boys thoroughly enjoy working under Coach Hobson. It is possible that the Glades boys are representative of all boys this year by a team as good as last year's.

Fishing contests come to a close today. I'm sure that I won't win a prize. The season has come and I haven't won a fish. I've had a few fish. I haven't heard of a record-breaking fish this summer. There must be a reason. I don't know what it is.

You may be interested in a story on this page about the difference of opinion of three Everglades on the effect a war would have on the price of beans in the Lake Region. Read the story. See which one you agree with. There are many and divergent views about the effect a war would have on this community. Yours is as good as the other fellows.

Friends of State Representative Russell O. Morrow will be interested in the following item clipped from the Palm Beach Post: "State Rep. Russell O. Morrow, West Palm Beach attorney, was in the city last night following a motion that he decline the office now held by the law firm of McCoy & Love, vacant as a result of a special meeting of the city commission. Vice Mayor Sam D. Phillips presided in the absence of Mayor Grady H. Morrow. The appointment was made at the conclusion of routine city business as Mayor Bradstreet was called from the city hall to attend at a coroner's inquest being held in the municipal court at the police station. Mr. Morrow will take over his official duties Sept. 1."

"Kweichow, the most backward province in China, plans the organization of a \$1,000,000 company to develop industrial resources and can control the water power and mining enterprises."

Weather, Vegetables, Railroads and Trucks Bring Forth This Comment

Everything Points To Busy Season Whether Or Not It's Profitable

Weather conditions must be favorable if Lake Okechobee region farmers are to make any money during the coming season. With the exception of two or three frosts experienced yearly by this area there is little to worry about except price and the proper amount of rainfall. Last season's drought proved disastrous to many growers in this section where land was lacking in water control. The season of 1938-39 was one of the driest since growing of winter vegetables became the major industry on the shores of Lake Okechobee.

Rainfall up until this week is far ahead of last season according to reports kept at the government station in Canal Point. Last year at this time we had only 23.3 inches of rainfall in the year 1938 as compared with 38.5 inches in 1939. The major portion of rainfall this year has come during the past two or three months when Glades farming land was lying idle. This, growers point out, has been advantageous since covering of muck soil has proved beneficial.

A representative of this newspaper has talked to growers, housemen and seed salesmen this week in an effort to find out something about the amount of acreage to be planted in vegetables this season. At this time it is practically impossible to ascertain to any degree of certainty just how much land will be planted. One thing certain, however, is that more of the fall acreage will be planted in diversified crops than in the past. Seed salesmen say (Continued on Page 3)

Arundel Will Do Lake Levee Work

The Arundel Corporation of Baltimore, Md., submitted a low bid of \$62,000 for additional work at East shore levees when bids were opened Friday in the district engineer's office in Jacksonville. The only other bid submitted was by Atlanta and Pacific Company of New York.

The work department has available a million dollars for this work which consists of raising and strengthening the levees from Port Mayaca to Bacom Point along the east shore of the lake. The levee is built across the open water. A portion of this work has been done during the past two years by the U. S. Engineers with their hydraulic dredge Welatka, but a few months ago the Welatka was shut down after a decision was made to complete the work by contract.

This section of levee since it was completed has seriously eroded from wave action from the lake making necessary corrective measures to prevent erosion. The erosion has been caused by a wide beach or beach of rock on the lakeward side of the levee as well as the elevation of the top of the levee.

The Arundel Corporation has a contract for a portion of the original levee which is affected by the new work. The company has had several previous dredging contracts in the lake area. The Cleveland News.

PORT MAYACA HAS 19 INCHES RAINFALL DURING AUGUST

Rainfall in Port Mayaca from August 1 to August 31 was 19.0 inches, according to reports kept at the government station in Canal Point. Last year at this time we had only 23.3 inches of rainfall in the year 1938 as compared with 38.5 inches in 1939. The major portion of rainfall this year has come during the past two or three months when Glades farming land was lying idle. This, growers point out, has been advantageous since covering of muck soil has proved beneficial.

About A Judge Who Took Advantage Of Chance To Get Even

With the opening of school only a few days away we believe the following story will be of interest to teachers and students alike. It has to do with a judge who took advantage of an opportunity to get even with a teacher. But here's the story. You read it.

A young lady schoolteacher was recently stopped for driving without a red light and given a ticket calling for her appearance in traffic court the following morning. She was met at one of the judge's law offices where she had to be at her classes then, and asked for the immediate delivery of her car.

"So," said the judge sternly, "you're a schoolteacher. That's fine, Madam, your presence fulfills a long-standing ambition for me. For years I have yearned to have a schoolteacher on my staff. You sit right down at that table over there and write 'I went through a stop sign,' 500 times."

Council Refuses To Suspend R. Clifton On Leo Day Charge

McClure Casts Deciding Vote After Four Members Deadlock

A split vote of the Pahokee city council, representing the council's refusal to suspend police officer R. Clifton for a ten-day period on charges of being drunk on Leo Day.

The council's decision was cast by president of the council O. B. McClure after the four regular members had become deadlocked on the question.

As the result of an altercation in the negro section of Pahokee earlier in the month, Day filed a statement with the council charging Clifton with conducting a riot and threatening him with a police officer. This action was taken in a sensational meeting of the council on August 26, when the body refused to give a decision in the case until the next meeting.

The council passed an ordinance by title which would require owners of livestock kept in the city limits to keep their animals enclosed in a fenced-in enclosure, and to be kept away from houses, sidewalks, and streets to prevent their becoming nuisances.

W. A. Humphries appeared before the council to ask that Second street from Barfield road to Belle Glade highway be widened. This request was taken under consideration by the body.

New Woman's Club Being Constructed

Construction of the new Pahokee Woman's Club building is proceeding rapidly since work was first started ten days ago. Contractor Ike Elkins and his crew of workmen have laid off the site, driven the piling, and partially erected the \$3,000 frame structure. The framework and most of the siding have been put up at the present time and the job will be completed within a reasonably short time.

The new club house is located on the southwest corner of Barfield road and First street, a very desirable location. The Woman's Club recently negotiated a \$5,000 loan for the balance of the money required for the project after a building fund had been accumulated by the organization over a period of several months.

Fire Board Members Named By Governor

Palm Beach county will be represented on the Everglades Fire Control district board by Frank Colson of Pahokee. Hendry county will be represented by Charles Miller and R. B. B. is the new member from Glades county. The appointments were announced at the governor's office in Tallahassee during the past few days. W. M. Stafford of Pahokee is chief of the fire control district.

Boe Erecting New Storage Building

Keeping step with the growth of his business, Chas. Boe, proprietor of Boe's Automotive Service in Pahokee, this week announced plans for erection immediately of a new warehouse in which his trade-ins will be housed. The structure is being erected on a lot adjoining his garage, a 10,000 electrical store and will be 30x54, two stories high. The land was staked out on Tuesday evening of this week and it is hoped that Mr. Boe that construction will be started at once.

According to Boe, the concrete contractor, will pour the floor for the new building during the next few days. It was said that the building will be completed by the end of the month. Mr. Boe that construction will be started at once.

Three Evergladers Differ As To Result War Will Have On Price Of Our Beans

If there is a war in Europe, how will it affect the price of Everglades beans?

This question was put to three men, and they gave three different answers. Each of the men has sources of information better than most Evergladers have, all are in the "bean business" in one way or another.

"War will be bad for business in all lines, and this will be true whether it is a general war, with the United States involved, or a war between Europe," said the first man. "Green beans are grown for domestic consumption—they are not exported, not even canned beans. Our winter-grown beans, if they are to profit, will be sold to the growers, and a luxury product. Our beans sold at high prices during the boom years before 1929, when everybody was rich, or when all thought they were going to be rich next week. Poor people don't buy high-priced beans. Nowadays the rich people say they are likely to have a hard time getting the money to buy beans, and they reduce their living costs. Since green beans are not exported, as wheat and some farm products are exported, war in Europe or anywhere else can't help the bean grower. As to the domestic market, nothing has happened or is likely to happen that will make the market any better than it was last year and the year before."

And that's what he said.

This is the second man's view: "War anywhere will help all lines of business in the United States, including the business of growing vegetables. France and Great Britain will require arms and munitions from the United States, and President Roosevelt is going to see to it that those nations get them from us—depend on that. Any way, France and Great Britain will get other supplies from our stockpiles and raw materials and in larger volumes than before, and that increase in demand will raise prices and stimulate business. It is true that our beans are not exported and that they are grown for domestic consumption by people of ample means for good living. Work people in the north and east are being employed more generally than if there wasn't a war in Europe, and this increased employment at good wages will give them means with which to buy our beans."

And that's what he said.

Whether there is war won't have a darn thing to do with the matter of whether the coming season will be good or bad for us here in the bean growing section of the Everglades. For one thing, soldiers won't be eating green beans; if they eat any beans it will be dried beans, navy beans, just like soldiers have always done. As one of the fellows says that you quoted, beans are sold for domestic consumption, and let me tell you this: The price of our beans is going to be fixed by the law of supply and demand, not by war in Europe. If there is a shortage of beans the price will be high, and if there is a surplus the price will be low, whether Germans or Poles or Englishmen are fighting Russians.

"The things we have to worry about will be the same things we have always worried about, that is, whether the ground is too wet or too dry at planting time, whether the beans are attacked by insects, whether there are plant diseases and insect pests."

If the readers don't get any information from these three quotations of opinions from three Evergladers, he is no worse off than the speculator in stocks and bonds who trusts to the opinion of experts on what the Stock Exchange may or may not do.

Pahokee Legion Is Against Change Of Thanksgiving Day

Legion Post Gives Three Reasons For Action Monday Night

Since President Roosevelt issued his edict changing Thanksgiving day from November 30 to November 23, there has been nation-wide comment about the change. Some parts of the country favor it and other parts are unfavorable. The action of the Pahokee Legion post Monday night brought forth the first official objection in the Lake Region to the President's move.

At the regular meeting of the Legion post on Monday night, held Monday night, the body went on record as opposing the president's move to change the date. Copy of a resolution adopted by the Legion was mailed to C. Howard Rowden, department adjutant of the American Legion in Palatka, Fla.

The resolution incorporated three reasons for objection to the advance of the national holiday. They are as follows:

RESOLVED: That the Fred and Percy Mansfield Post No. 90, American Legion, go on record as opposing the advancement of Thanksgiving Day from the last Thursday of the month to the first of November for the following reasons:

(1) The adverse effect it would have by bringing the national day forward from the last Thursday of the month to the first of November.

(2) The adverse effect it would have by bringing the national day forward from the last Thursday of the month to the first of November.

(3) The adverse effect it would have by bringing the national day forward from the last Thursday of the month to the first of November.

(4) The adverse effect it would have by bringing the national day forward from the last Thursday of the month to the first of November.

(5) The adverse effect it would have by bringing the national day forward from the last Thursday of the month to the first of November.

(6) The adverse effect it would have by bringing the national day forward from the last Thursday of the month to the first of November.

(7) The adverse effect it would have by bringing the national day forward from the last Thursday of the month to the first of November.

(8) The adverse effect it would have by bringing the national day forward from the last Thursday of the month to the first of November.

Dredge General Will Work On Lake Levee

The dredge General will arrive in Lake Okechobee soon where its owners, the Arundel corporation, were successful bidders on a government contract to do additional construction work on the levee between Bacom Point and Port Mayaca. Capt. Hermanon, boys is well known to hundreds of Lake Region residents, is in charge of the dredge and will be welcomed back to Lake Okechobee.

Canal Point Juniors Have Good Ball Season

Speaking of records—here's one that establishes something new. The Canal Point Junior diamond ball team has played 56 games this summer with teams here and there around the Lake and out of that total only five games have been lost. Delmar Hooks, who looks out for the boys and furnishes the transportation, is right proud of the boys' accomplishments as are all residents of Canal Point. What's ever the percentage of wins happens to be—the boys are due congratulations for their summer's efforts.

35 Candidates Report To Hobson On Lair Field Wednesday For First Workout

Squad To Leave Monday; Pre-Season Training Camp

Thirty-five boys, including much experienced material, reported to Coach Frank Hobson at Lair Field Wednesday morning for the Pahokee Legion's 1939 football practice. The gridiron aspirants were rushed through a hard calisthenics drill on the first day, and Coach Hobson called a practice for Thursday so that the boys would have time to get into the dress when they leave for training camp Monday.

Booking of a hard schedule enough to be put in the "suicide class," has been nearly completed, and will be announced soon. About 11 games, including a home-and-home arrangement with the Lawrenceburg, Tennessee, team, are expected to be definitely scheduled.

The Blue Devil grid hopes were given a big boost Wednesday, when Kermit Dell, the line-wrecking full-back, announced that he would be able to play this season. A serious foot injury had put Dell out of the game for some time, but he was doubtful if he would be available.

Hobson and assistant coach Delmar Hooks, who have been working at Muscle Shoals, look on the line matter, must turn most of their attention to developing a smooth working set of backs. Dell, Jack Fowler, Calvin Pascoe, Walter Cross, Osbourne, Belyeu, and Audie Hooks have all had good experience to give them the inside truck; but Hobson made it plain that all positions are wide open at this time.

Hobson and his men will leave by bus Monday morning for Flaming Arrow camp near Lake Wales where they will spend ten days in pre-season practice. The boys hope to put his aggression in first class condition for the opening game of the season to be played at Lawrenceburg, Tenn. Members of the Athletic Council announced yesterday that the boys would be taken to the Tennessee town in cars instead of by bus. It is the plan of the council to take the boys to the game in a motorcade, and to have them play on Mountain and Stone Mountain for a night-sleeping trip to the way back home.

The home game is scheduled for October 6th with the eleven representing Punta Gorda high school. Before the arrival of this season's team to go over to the grandstand and make necessary repairs to insure their safety during the game, the necessary arrangements will be worked out whereby 450 of this particular variety of seats will be available. The season's ticket sale for season tickets. The seating space allotted last year for a reserved seat was 16 inches while this season it will be increased to 20 inches.

When the Blue Devils trot onto Lair Field for the first time, the boys will be well outfitted in brand new equipment. A

Meeting Scheduled for Legion Hall At 8 P. M. Tonight; Every Citizen Invited

DRIVERS' LICENSE 50c ONLY IF BOUGHT OF CO. JUDGE ROBBINS

With every automobile driver in Florida a prospective purchaser of a driver's license must now and October first, a great deal of comment has been heard about the notary fee on the application, for the license. Here's the dope: If you purchase your license from a notary, you will be no notary fee. Judge Robbins explained to the representative of this newspaper in Lake Region that the state law provides for the issuing officer to be a notary public. However, if the application is made elsewhere the application must be witnessed before a notary public. Whether there is a charge then depends upon how good a friend the notary is of yours.

20 Miles In 20 Days Is Record Made For Clearing Hyacinths

Dredge D-1 Completes Its Work From Canal Point To 20-Mile Bend

The government dredge, D-1, has done a record job in clearing hyacinths from the West Palm Beach canal between Canal Point and Twenty-Mile Bend. The 20-mile stretch of hyacinth-infested canal was cleared of the growth in exactly 20 days. The first time the dredge has been able to clear the growth in the Lake Okechobee region. In years past other machines have made vain efforts to clear the growth from the canals. It was not until the appearance of the D-1 that any hope of a success could be claimed.

When the D-1 was brought to Canal Point several weeks ago it was announced that the government engineer headquarters in Jacksonville were planning a test of the machine in the West Palm Beach canal. A trial period proved that the machine was a thorough success and engineer officials laid orders for the dredge to continue its operations until it reached 20-Mile Bend. Glades residents, who have been suffering from the nuisance of hyacinths and by the end of the week or the first of next every hyacinth will have been taken care of.

Following completion of the work done by the federal government, responsibility of keeping the canals clear will be turned over to the drainage district. These officials have not announced their plans for keeping the canal clear of the hyacinth growth.

thought, however, that one man will be employed with a small powerboat to patrol the canals and destroy any growth that is seen springing up.

Pahokee Plans To Repair Its Street

A street program calling for repairs to present thoroughfares and the building of a new street will be undertaken when the rainy season begins. The city engineer, W. E. Pope, will be in charge of the work. The city is prepared to go ahead with the program as soon as the rainy season begins. The city is prepared to go ahead with the program as soon as the rainy season begins.

FRANK SPENT 25c TO SELL 30 BAGS OF HOME GROWN SEED

Frank Colson, operator of the Pahokee Service Station, called The Everglades News office last week and inserted a "for sale" notice in the classified column. Something about home grown bean seed for sale. On Wednesday the notice was in the paper and again and told us to stop the ad. The entire lot of 30 bags of bean seed had been sold. He stated that when he sold the seed at the cost of the classified advertisement was 25c.

Citizens Urged To Attend Organization Meeting Of New Chamber.

Election of Officials Will Be In Hands of All Who Attend First Meeting—Many Recommendations Expected For Definite Betterment of Pahokee and Surrounding Community.

A new day is about to dawn for Pahokee. That is the belief of a handful of citizens who gathered Monday night and formed a tentative plan for the organization of a full-fledged chamber of commerce. A meeting of the entire citizenry has been called for tonight in the American Legion hall in Pahokee at which time details for organizing the new chamber will be completed. Ed Stumpf, secretary of the West Palm Beach Chamber of Commerce, has been invited to attend the meeting and outline plans for a successful chamber of commerce.

At the Monday night meeting, attended by a dozen men, it was decided that election of officials should be in the hands of those citizens who are invited to tonight's meeting. Definite aims and objects will be discussed at the meeting and it is urgent that every business and professional man in Pahokee, Canal Point and community be in attendance.

Attending the meeting Monday night and expressing hope for organization of a healthy and alert chamber of commerce were: Joe Massey, C. A. Bailey, George Mead, B. Elliott, John A. Mulvey, Paul Harlow, Leo Maxwell, C. Caffrey, Frank Bass, Jim McLary, Frank Rozelle, Wiley Tully. It was the opinion of those present that success of the proposed organization depends upon the whole-hearted support of every business and professional man in the community.

Pahokee Plans To Repair Its Street

W. E. POPE WILL ATTEND BOOKS FOR POPP-JOHNSON

W. E. Pope, a brother of E. L. Pope of the Pope-Johnson company, will be the bookkeeper for the company during the coming season. Douglas Mock, who has been with the Pope-Johnson company since the beginning of the season, will be associated with W. R. Shackford in the Indianapolis Produce company. The new bookkeeper arrived to make his home in Pahokee around a year ago.

FRANK SPENT 25c TO SELL 30 BAGS OF HOME GROWN SEED

Frank Colson, operator of the Pahokee Service Station, called The Everglades News office last week and inserted a "for sale" notice in the classified column. Something about home grown bean seed for sale. On Wednesday the notice was in the paper and again and told us to stop the ad. The entire lot of 30 bags of bean seed had been sold. He stated that when he sold the seed at the cost of the classified advertisement was 25c.

BELLE GLADE, FLORIDA

Here Are Rules And Regulations Concerning New Drivers' License

Tallahassee, Aug. 31.—Motor vehicle drivers licenses were available for sale in the offices of all county judges this week. Supplies were shipped from them Monday by D. W. Finley, motor vehicle commissioner and executive officer in charge of license sales. Instructions were mailed to county judges Saturday.

Every person operating a motor vehicle on the public highway is required to have a driver's license unless he is operating a motor vehicle for the Army, Navy or Marine Corps; is temporarily driving a road machine, farm tractor or other implement of husbandry on the highway; or is a nonresident having a valid driver's license issued in his home state or country.

October 1 is the deadline for securing drivers' license, but the public will have more than thirty days in which to secure licenses which, Commissioner Finley said, should give ample time for all drivers to secure their licenses.

Drivers' license will be numbered in the same manner used for automobile tags; that is, the initial number assigned to a county for tags will be the initial number on its drivers' licenses. Drivers' licenses will have "1" for initial number, Duval county "2", and the state office at Tallahassee will use "68".

Licenses will be issued without examination to any persons not

disqualified under the provisions of law which furnish evidence that he had previously operated a motor vehicle in a satisfactory manner for a period of not less than one year. Cost of licenses is fifty cents for private operators and one dollar for chauffeurs.

The law requires that every license holder have his operator's or chauffeur's license in his immediate possession at all times when operating a motor vehicle, and shall display the same, upon demand of a justice of the peace, a police officer, or field deputy or inspector of the Department. All peace officers are charged with the enforcement of the act.

"The law makes it mandatory for the Department to revoke the license of any licensee when he has been convicted of manslaughter or negligent homicide, resulting from the operation of a motor vehicle; driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug; any felony in the commission of which a motor vehicle is used; or conviction of any crime which is required under the laws of this state in the event of a motor vehicle accident resulting in the death of another person, or perjury or the making of a false affidavit or statement under oath, or any other offense under this act, or under any other law relating to the ownership or operation of motor vehicles, and conviction of any crime involving reckless driving committed within the period of 12 months.

The Department is authorized to suspend or revoke the license of any licensee without preliminary hearing upon a finding of such records or other sufficient evidence that the licensee has committed an offense for which mandatory revocation of license is required by law, or conviction of any crime involving personal injury of another or substantial property damage; is an habitual reckless or negligent driver of a motor vehicle; is a habitual violator of traffic laws; is incompetent to drive a motor vehicle; has permitted an unlawful or fraudulent use of such license; or has committed an offense in another state which if committed in this state would be grounds for suspension or revocation.

The act makes it unlawful for any person to authorize or knowingly permit a motor vehicle owned by him or under his control to be driven upon any highway by any person not authorized to operate the same, or in violation of any of its provisions; to employ an unlicensed chauffeur; or to rent a motor vehicle to any unlicensed person. Violations are punishable by a fine of not more than \$500 or imprisonment for not more than 6 months, or both.

Revenue derived from the sale of driver's licenses, after deducting the cost of the license, will be used for the support of the state road patrol created by the Legislature.

Legion To Sponsor Dancin' Labor Day In Pavilion

The dance committee of the Pabodie American Legion post announced this week that a Labor Day dance will be sponsored by that organization. Dancing will start five minutes past midnight, and music will be furnished by Tommy Ketter's 10-piece orchestra with Miss Dorothy Rios, vocalist.

Registration Books Will Close Saturday

Citizens of Belle Glade who desire to be in the annual city election on September 12, have until 5 p. m. Saturday night of this week to get their names on the books. Candidates for office are seeking to it that many of their friends are registered. Town officials stated this week that between 600 and 700 names will be on the list when closing time arrives Saturday night. Following the close of the books the council will purge the list of all names not properly qualified to participate in the forthcoming election.

Shelves Being Installed In Town Hall Vault

Workmen were busy this week installing shelves in the vault in the new Belle Glade town hall. The work will be completed this week. It is the hope of town officials that in the near future new furniture can be purchased for the town clerk's office.

Maybe some of the cooing has stopped in newlaid's homes. But the biding will go on indefinitely.

Velpeau Denton Chosen Best All-Round Athlete Attending Texas A - M College

"The 'Battalion,' semi-weekly publication of the Texas A & M College at College Station, Texas, has a great deal to say about the sports accomplishments of Velpeau Denton, a former Pabodie high school student, and son of Mr. and Mrs. V. C. Denton. In commenting on young Denton's all-round sports activities in the school 'The Battalion' says:

"He was selected this term as the best all-round sports star on the campus. V. C. Denton, the boy, was an overwhelming choice for the honored position. Denton during the regular term is a member of Battalion A, a master of rifle marksmanship, and is a student of Industrial Education. He will be a senior this year and will continue to play varsity football on which he played this past season."

"A jack of all sports," and Denton was nearly every place one might just happen to find him. He played good ball on

first base for the Aggie football team and was listed with the rest of his fellow-pays as one of the All-Stars. He carried off the tennis tournament by winning the singles, by defeating the best west in the doubles. He bowls a good bit, takes an occasional swim in the pool, drives a few golf balls now and then, dances as well as the rest. In fact, there are few things Denton doesn't do."

"The first summer tennis tournament won up with the last match finished at 6 p. m. As expected, V. C. Denton won the boys' singles, and teamed up with Jimmy Giles to win the boys' doubles. He teamed up with Angel Ornelas to win the mixed doubles."

Young Denton is a former star of Frank Hobson's Pabodie football warriors and his friends in the Lake Okechobee area will be glad to learn that he has been chosen as the all-round athlete of this outstanding school.

At The Theatres.

Rita Johnson in "9000 Barrens"

Belle Glade Wednesday and Thursday; Pabodie Friday.

"A compelling drama of prison expertly enacted by Walter Pidgeon, Rita Johnson, Paul Kelly and Nat Pendleton among others, brings exceptional entertainment to the screen. The picture is '9000 Barrens,' and not since the memorable 'Big House' has the screen offered so thrilling and powerful a story as that unfolded in the current offering."

The story is that of a young district attorney who, in the prosecution of the underworld leads him to being framed into a prison term himself on a trumped up charge of bribery. Facing six thousand enemies, he fights his way into their respect and eventually falls in love with a girl, whom he has convicted but who convinces him that she, too, was framed."

"9000 Barrens" is vigorous entertainment; with prison breaks, murder and risks all along the way. It is an important part in the story. George B. Seitz, who directed all of the 'Hardy Family' series, has directed this one. The background to two-fisted entertainment with equally outstanding results."

Another factor vital to Lake Region growth this season will be the vast amount of acreage being brought into cultivation in this area. The Indiantown section, hundreds and hundreds of acres will be in production there. It is learned. Much of the fall acreage will be planted to such crops as tomatoes and crops other than beans. Naturally, beans will come later for their share of acreage. These large packing houses will be in operation at Indiantown this season.

One of the Indiantown packing houses will be operated by the Indiantown Produce company which is composed of Douglas Mock and W. R. Shackford. Another house will be operated by the Pope Johnson company and still another by Mac Todd. It has been reported that to secure an exact estimate of the acreage to be planted in the Indiantown area but this writer has made inquiry and found that some of the larger farmers will have acreage about as follows: Will Hunt 550, Mack Shackford 500, Mac Todd 500, R. P. Todd 500, Pope Johnson Co. 500, George Fletcher 100, A. W. Fowler 60, and Fred McDonald 30. There are several more among whom are Louis Weiman and Joe Friedheim with more than 1,000 acres. How many acres they expect to put into production this season is not known.

With favorable weather conditions and a vast amount of acreage in production it is safe to say that this vegetable section will produce an untold amount of green winter vegetables. Then comes the item of transportation. Railroads and trucks fight good-naturedly for the business. Before trucks offered any formidable competition to the railroads the rail carriers received The per ton (per bushel) carried to New York under standard refrigeration. Since the advent of trucks and the stiff competition offered by them the railroads have reduced their rates.

At the close of the season last year the rail carriers were hauling beans to New York for 52c under standard refrigeration, while trucks were charging 45c. An additional 5c was necessarily added, making a total of 57c per hamper when shipped by rail. The rail reduction was made by raising the minimum load from 572 hamper to 640. Shippers say, however, that no increase was made in the amount of ice in the refrigerated cars and results on the shipping end were not completely satisfactory.

It is believed by some that there will be as many if not more trucks than rail cars in operation this year. Some say that there is little profit to be made in hauling beans at this time in the season. Others believe that a man can make a living if he keeps his truck rolling day in and day out. At the end of next season it will be easy to tell the result of the "price war" as it now looms between the railroads and the trucking industry.

Queen Mary made her 13th visit to a theater five weeks when she went to the Old Vic in London and saw them. "An Enemy of the People."

Buses leaving unattended street cars in Dublin, Ireland, the upper decks of the old "trains" are being offered for sale as summer houses for suburban estates.

Schroder Points To Many WPA Groups In Employe Set-Up

250 Classifications Make Workings Intricate For Labor Groups

Under the new WPA schedule of earnings effective September 1, each classification of "unskilled" labor will be divided into two separate groups according to whether the work is of an outside nature or conducted indoors. It is pointed out by Roy Schroder, W. P. A. Administrator for Florida.

The new regulation, said Administrator Schroder, "define 'Class B' as including work of a routine or simple nature which requires no special skill or training, previous experience, or for which proficiency may be acquired with the minimum of application. Such work does not expose the individual to hazardous tasks that require heavy physical labor."

"This type of work will include the following: Bookkeeping, clerical, stenographic, messenger, janitor, laundry worker, mail messenger, nursery helper, nursery school attendant, postman, recreation attendant, seamstress, and water carriers."

"Class A" occupations in the unskilled bracket, continued the State Administrator, are of the type of work normally done by construction and general laborers. This section requires physical fitness and may involve the use of simple hand tools and equipment. Workers in this group may often be assigned to assist skilled laborers when the work undertaken is not sufficiently difficult to require the services of a skilled worker. "Class A" also includes clerical and office work of a routine character for which little experience and training is necessary. Establishments in the unskilled 'A' class include: Deck hand, exterminator, forester's aide, housekeeping aide, junior clerk, janitor, typist, laborer, teamster, watchman and woodcutter."

The Work Project Administration Employment Division has to deal (in round numbers) with 250 separate classifications of labor, pointed out Administrator Schroder. These are divided into two divisions of unskilled workers and the professional and technical group there are 35 different assignment classes; in the skilled group 96 types of assignment; the intermediate group represents 80 fields of work; while in the unskilled group "Class B" carries 10 occupational fields, and "Class A" 10 occupational assignment classifications.

"There will be comparatively few changes in classification of workers in any of the occupational branches except in the unskilled group," concluded Administrator Schroder. "In the unskilled group that will be the most extensive reclassification required in order to place the workers into the new occupational classifications under 'B' and 'A' divisions. This is required to be accomplished by September 1."

Old City Hall To Be Moved By Owner

Removal of the old Belle Glade city hall building will take place upon the return of N. D. Lloyd, purchaser of the structure, from his vacation, according to word from city sources. The building is now located on a lot which was owned by the town when the new \$28,000 municipal building was being constructed, but the lease has long since expired. According to the sales agreement, the building should have been moved within ten days after the city office vacated it, but a time extension was given in view of the fact that Mr. Lloyd is out of town.

Frank B. Wright, director of publicity and executive secretary of the Alumni Association of the University of Florida, told the graduating class at Gainesville that education should not only be the grave. Dr. Thomas R. Leigh, vice president of the University, received degrees and diplomas on 160 graduates at the close of the second summer semester.

Hundreds of Tamps citizens have contributed generously to the fund for the purpose of purchasing two "iron lungs" for the Tampa Municipal Hospital. The campaign was sponsored by the Tampa Health Bids for the first of the two "iron lungs" were opened this week.

Plans have been made in Ireland against attracting tourists to the country because foreigners make the Irish discontented by their presence.

East Coast Mail Arrives Later Now

Mail from the East Coast arrives later in Canal Point and other places in Glades county than it did before the new schedule was arranged which calls for delivery of mail to Pelican Lake Village, 2 1/2 miles from Azcoot, in the past mail has arrived between 9:30 and 10 a. m. The new step which calls for an extra five miles of driving and several minutes to deliver the mail causes arrival of mail in Canal Point and other Lake Region towns to be around 20 to 30 minutes later each day.

Glenn T. Brower is RESIDENTIAL SALESMAN. Glenn T. Brower, formerly of West Palm Beach is the residential salesman for the Glades branch of the Florida Power and Light company. He will move his family to Pabodie just as soon as he is able to secure a house.

Popular Coach Receives Degree; Peabody College. Frank Hobson, of Pabodie, Fla. received the master of arts degree from George Peabody College for Teachers at commencement exercises on the college campus Tuesday night, August 22.

Approximately 500 students received bachelor of science, bachelor of arts in library science, master of science, master of education and Ph. D. degrees. Dr. Sidney B. Hall, state superintendent of public instruction of Virginia, a former Peabody faculty member, was the commencement speaker. Dr. S. C. Gardner, president of Peabody College, presented the degrees and delivered a farewell address to the graduates.

Miss Taylor Entertains Friends

Miss Marjorie Taylor entertained several friends Saturday afternoon with an ice cream supper at her home in Canal Point. Those attending were Miss Eleanor Everett, Miss Katherine Taylor, Miss Frances Jordan, Harold Taylor, Tommie Parker, Junius Harris and Sam Gibson.

Arch Blakely stepped on a loose joist while working on the Sanders building Tuesday afternoon and fell from the ceiling to the ground floor, receiving severe bruises on his side and hip but no broken bones. He received treatment at the Everglades Memorial Hospital.

Mrs. J. C. Mook and Mrs. B. J. Barwick motored to West Palm Beach Wednesday to bring home Mrs. B. Mook and infant son, William Rupert, Jr., from Gopi Samaritan Hospital.

Billy McKinstry has returned from Homestead where he spent a week visiting Mr. and Mrs. James Vana and family.

Mr. and Mrs. Sam McKinstry Sr., entertained Sunday with a party honoring their son, Sam McKinstry, Jr., of St. Cloud, on his birthday anniversary. Guests were Mr. and Mrs. E. J. Cochran, Jr., Mr. and Mrs. B. J. Barwick, Mr. and Mrs. Don Kopp, Mr. and Mrs. Horace Unwin, Mr. and Mrs. W. H. Cochran, Mrs. Sam McKinstry, Jr., Sam McKinstry, III, Miss Joan McKinstry, Johanna McKinstry and others.

Mrs. Lauri Gates, Sr., Tampa, is the guest of her son-in-law and daughter, Mr. and Mrs. Anst Hottel, in Canal Point.

Mrs. G. M. Poole accompanied Mrs. Willy Tills and Mrs. The Jacobs and children to Miami, on Tuesday for medical examination at a hospital there.

Mrs. Earl Smith left Tuesday night for Rochester, Minn., where she will undergo observation and treatment in Mayo's clinic for a head ailment.

Mr. and Mrs. Calvary Watson have arrived from Georgia, to spend the season here.

Mrs. Frank Hinton returned Saturday from Indianapolis, Ind., where she spent a month with her parents.

Mrs. Lewis Crosby and children returned Saturday from West Palm Beach, where they were guests of Mr. and Mrs. George Jensen.

Mr. and Mrs. B. O. Whitman spent the weekend with relatives in Bowling Green. They were accompanied by their son, Billie, who spent the summer visiting there.

Miss Roberta Thomas returned Sunday from a week's visit with Miss Leah Richard in Clewiston.

Mrs. and Mrs. W. H. Willis returned home Sunday after spending the summer in various towns in Florida, including Jasper, where they visited Mrs. Willis's mother, Mrs. J. L. Rhodes.

Mr. and Mrs. Sheltan Campbell have gone to Arcadia to reside.

Dan Avera, Jacksonville, is visiting his uncle and aunt, Mr. and Mrs. Jesse Bass, here.

Mr. and Mrs. G. W. Williams and Miss Young Grewer, Miami, spent the weekend here with relatives.

Mr. and Mrs. A. L. Baker have returned to their home in Canal Point from a visit in Wheeling, West Virginia.

At a recent meeting of the Pahokee-Canal Point Townsfolk club at the Pahokee Woman's club building, Carmen Salvatore was received into membership and made treasurer of the delinquent dues committee, and a member of the membership committee.

Announced meeting plans were under way to obtain Rev. Gast and Mr. Pfister, Townsfolk speakers from Lake Worth, to address the club soon.

Mrs. Ira York has gone to Atlanta, Ga., to visit her son-in-law and daughter, Mr. and Mrs. Harold Conner. She was accompanied by her mother, Mrs. J. C. Paulett, Sr., who has been her guest.

Mr. and Mrs. J. C. Paulett, Sr., and Mr. and Mrs. Walter Murphy of Miami, were guests here Sunday of Mr. and Mrs. J. B. Thomas.

Dr. and Mrs. D. S. Spooner returned to Immokalee after spending the weekend here with relatives. They were accompanied home by their nephew, Calvin Spooner, who will be their guest for two weeks.

Mr. and Mrs. W. A. Cross and children, Vivian and Hilt, have returned from a visit in Miami.

Records of all kinds were broken last week on Everglades roads, with the result that "jook-organs" in this section were playing virtually the same selections as last week.

The record-breaking event happened last Friday, when the music truck servicing the popular machines had a slight collision which, however, produced enough of a shock to shatter nearly all of the tuneful discs.

Pahokee Nine Wins From Lake Worth

The Pahokee "baseball" team clinched over Lake Worth to take second place in the league standings Sunday when they defeated the tall-tall Pompano entry on Bateman Field by a score of 12 to 2. The win put Pahokee a slight 15 cent per cent in front of the Lake Worth team.

Still far behind the pace-setting West Palm Beach Merchants. In downing Pompano for their sixth win in the last seven games, Pahokee put together some sloppy play on the part of the invaders in the sixth and seventh innings to tally their twelve runs. In the meantime, Stafford was holding the losers to four hits.

Sunday's game concluded the regular league play on the Pahokee field, but the team played in the Lake Worth game, which will meet the West Palm Beach team on Wright Field Sunday.

Ed Thomas returned to Pahokee Friday after spending the summer in the Carolinas and Virginia where he was engaged in the produce business. Ed plans to carry on his business as a truck agent during the coming season.

Former Hobbsman To Attend U. of Ga.

Kenny Mook, former member of Frank Hobbs's foot ball team and graduate of Pahokee high school, will attend the University of Georgia at Athens this coming term. Kenny had a letter from the freshman coach saying that his name will be on the line-up of the freshman squad. Friends of Kenny will be glad to know that he is going in for more football along with higher education.

Mr. and Mrs. T. A. Waites have returned to Hawthorne after spending the weekend here visiting Mr. and Mrs. Rufus Galloway and other relatives.

Mr. and Mrs. Lloyd Hendley have returned home after spending the summer with relatives in Kansas and Colorado.

Mrs. Paul Faridat has returned to Canal Point from Glenview, Ga., where she spent the summer with her parents, Mr. and Mrs. W. C. Strickland.

T. W. Jenkins went to Swainsboro, Ga., Monday to get his son, Raymond, who has been visiting relatives there. He was accompanied as far as Lyons, Ga., by Mrs. Emma Howell, who has been the guest of relatives in Canal Point.

Berte Robinson has returned to his home in Baker, Fla., after visiting his uncle and aunt, Mr. and Mrs. G. C. McFarley here.

Timmy Muller has returned from Mayo, where he visited his grandmother.

Miss Daphne Hazleton of Maine is a guest of A. J. Anderson and daughter, Miss Margaret Anderson.

When engineers engaged in research want to know the results of usage of a device over a period of years, they do not wait impatiently for a test to consume the full period under consideration. Many times, if the latter, requirements were necessary, the grandchild of the engineers would be waiting for the answer.

Instead, engineers usually evolve a device which will give the answer to a question in just a fraction of the time required by the "waiting" method. Just recently for example, engineers developed a measuring device that enabled them to cover a span equivalent to 100 years in ten days.

This device was made especially to test the service which can be expected from an electric range switch, says Cliff Eise, Pahokee, Frigidaire dealer. "Engineers need the measuring equipment in the General Motors exhibit at the New York World's Fair to obtain accurate facts about the durability of the silver circuit, five heat switch used in the Frigidaire electric range. Indicating gauges showed days, months and years on a panel which visitors to the exhibit could examine during the test interval."

"At the conclusion of the test, during which it was found on and off automatically many thousands of times each day, it was found the switch had been subjected to the same number of on and off revolutions which would take place over a 100 years period under normal use of normal use in the kitchen."

"During the time the switch was undergoing this test it was connected with electric lines and consequently was using electricity just as though it were performing its service in the home. But when the switch was returned to the factory for inspection, it was discovered that even with the 'wear' which could be expected from such intensive use, the switch was little affected by its strenuous use. The test, which was little affected by its strenuous use. Engineers declared that there was no reason why the switch would not withstand another test of this type, simulating equivalent of another 100 years of household use."

Jerry and Louie Gold returned to their Pahokee home this week after spending the past month in New York where they visited friends and relatives and attended the World's Fair.

Belle Glade Council Held First Session In New Town Hall Wed. Night, Aug. 30

The above is a picture of Belle Glade's recently completed town hall. The picture was made before beautification of the ground around the building was completed. Belle Glade councilmen met in the new building on Wednesday night of this week for the first session to be held in the beautiful structure. Visitors in Belle Glade during the past few days have been loud in their praise for the beauty of the new structure and commented favorably upon the convenient arrangement of the offices therein. Especially has there been favorable comment about the auditorium on the second floor which will seat in the neighborhood of 300 people when the seats are installed.

Frigidaire Facts By Dealer Olaf Boe

When engineers engaged in research want to know the results of usage of a device over a period of years, they do not wait impatiently for a test to consume the full period under consideration. Many times, if the latter, requirements were necessary, the grandchild of the engineers would be waiting for the answer.

Instead, engineers usually evolve a device which will give the answer to a question in just a fraction of the time required by the "waiting" method. Just recently for example, engineers developed a measuring device that enabled them to cover a span equivalent to 100 years in ten days.

Ford Cochran Takes A Postman's Holiday

W. H. "Ford" Cochran, a member of the Pahokee police force, has been on vacation for a couple of weeks. There's nothing unusual about that. Most everyone has a vacation now and then. The unusual thing about Ford's vacation is that he spent part of it riding with Patrolman Hilt Clinton in the police car. Just taking in the sights, probably.

MR. AND MRS. COX RETURN

Mr. and Mrs. J. B. Cox returned to their home in Canal Point over the week end after spending the past summer in the Carolinas. During the summer Mr. Cox acted as summer school at the university. He has been busy this week making plans for the opening of the Canal Point school.

C. S. Moore Beautifies Lot Opposite Home

C. S. Moore and a crew of workers were busy this week clearing the lot across the road from his home in Pahokee where he plans to plant grass in a beautification effort. The lot, about 280 feet on the Canal Point-Pahokee highway and when planted to grass will add greatly to the beauty of the spot.

CARL DAVIS RETURNS TO PAHOKEE THIS WEEK

Carl Davis, bookkeeper in the office of the Cochran Packing company in Pahokee last season, returned this week from Thomasburg, N. Y., where he has been employed during the summer. Davis has not announced his plans for the coming season.

Constant Rains Cause of Lawn Work

Yards in the Lake Region, planted to St. Augustine grass, have had a unusual amount of mowing during the past month and a half. The constant rains cause the grass to grow so fast that it is necessary to mow lawns twice a week in order to "keep the grass" in hand.

CATE ERECTING SEVERAL HOMES FOR LABORERS

Workers are busy this week erecting several more small homes on Bartfield highway for laborers who work on the P. M. Cate farms and in his packing houses. Last fall Mr. Cate erected 10, a small home on the highway to house some of his laborers but, farming of extensive acreage this year calls for more homes. They will be ready for occupancy with the start of the new season.

BOLTON EMPLOYE HOME FROM HIS VACATION

Jack Suratt, employee of the Bolton Drug store in Pahokee, returned this week to resume his duties after spending the past three weeks with his parents and other relatives in Hamilton, Mo. Jack reports an enjoyable vacation but says he is glad to be back on the job in Pahokee.

Here's Belle Glade Election Holders

The annual Belle Glade town election will be held on Tuesday, September 12, at which time two commissioners for two years, one commissioner for one year and a mayor for two years will be elected. Those persons appointed by the council to conduct the election are as follows:

Inspectors: Mr. A. Murphree, H. G. Weeks, Mary Elizabeth Bass and clerk, G. I. Evans. The polls will be open from 8 a. m. until 6 p. m. It was stated by town officials.

Scout Honor Court Held Monday Night

Honor court of the Canal Point Scouts was held Monday night with Dr. J. R. Neller, Rev. J. O. Janssen, Rev. M. O. Slavson, J. H. Harrison, J. P. Cox and Scout Executive George P. Freeman in attendance. The next court will be held in Pahokee on Sept. 25. The contest being sponsored Mr. Cox pointed out that all applicants must be in the mail not later than Sept. 18th.

THOMAS MEAD RETURNS FROM FLATSBURG VISIT

Thomas Mead of Pahokee returned Wednesday from Flatbush, N. Y., where he spent a short vacation visiting friends and relatives. He was accompanied home by a nephew, Robert Egan of Flatbush, who will spend several weeks as a guest of Mr. Mead and his son, George.

PAHOKEE AUTO PARTS CO. HAS NEW CONCRETE WORK

John A. Dulany, owner of the Pahokee Auto Parts company, has had a concrete drive built in front of his place of business on Belle Glade road. The drive is the width of the building and extends to the street, making a sufficient distance to allow ample room for working on cars.

SEEKING SUPPORT

Candidates for municipal offices in Belle Glade—12 of them, two for mayor and 10 for councilmen—were busy most of this week "polling" for votes when the annual town election is held Tuesday, September 12. Although there has been unusual interest in this year's election, everything appeared smooth and quiet on the surface. Most candidates restricted themselves to urging all eligible voters in Belle Glade to register before the deadline Saturday, September 2, at 5 o'clock p. m.

Pahokee Legion—

(continued from page 1) giving away closer together.

(2) The interference it would cause with the football schedules of schools and universities, thus to a certain extent disrupting the school program.

(3) By destroying a tradition with the American people, the observance of Thanksgiving Day on the last Thursday in November.

Pahokee To Organize—

(Continued from page 1) the Pahokee trade area along with the employment of a competent secretary.

At the meeting, tonight it is hoped that an organization can be perfected that will render an unqualified service to the town and its trade territory. Definite plans will be discussed and among things to come up for discussion will be the erection of a modern and up-to-date hotel in Pahokee. Interested citizens with worthwhile ideas about the promotion and betterment of civic life in Pahokee are urged to be present and present their ideas so that the organization may have some interesting and worthy projects to include in its aims and objects.

Mr. Stump's appearance tonight should be of interest to every citizen of this area since the West Palm Beach chamber secretary has had many years experience along this particular line. It is possible that other members of the West Palm Beach organization will accompany Mr. Stump to Pahokee for the meeting tonight.

Those who attended the Monday night meeting hope to contact the major portion of business and professional men and extend to them an invitation to attend. However, if one of them fails to see you between now and 6 p. m. tonight you may consider this a personal invitation to be in attendance at the meeting. If things are to be accomplished it is necessary that this proposed organization have the whole-hearted and unstinted support of every business house in this trade area.

Seek Government Assistance Build Dock Facilities

Pahokee Officials Make Plans For Work In Advance

High hopes are still held of having the federal government combine the extension of Pahokee's water department intake valve with the building of docking facilities when the elevating and re-ventment work on the Lake Okechobee levee approaches Pahokee, according to Mayor John A. Dulany. The city of Pahokee has secured the services of an engineer to draw up plans for a break-water basin. These plans will be submitted to the office of the district engineer of the War Department.

Although the \$223,000 contract recently let by the government to the Arundel corporation for work on the levee does not come within a mile of the Pahokee intake valve, Mayor Dulany expects the project to draw up plans for a break-water basin. These plans will be submitted to the office of the district engineer of the War Department.

At the meeting, tonight it is hoped that an organization can be perfected that will render an unqualified service to the town and its trade territory. Definite plans will be discussed and among things to come up for discussion will be the erection of a modern and up-to-date hotel in Pahokee. One thing revealing about shorts for women is that a bow-legged girl is honest about it. Why ponder over intelligence tests when life itself furnishes a real "sticker"?

Probabilities of War Discussed By Rotarians

Absence of a planned program for the regular luncheon meeting of the Pahokee Rotary club left the program period open and V. C. Denton, who served as president in the absence of Dr. W. C. Young, presided, called for an impromptu discussion by members of the war probabilities in Europe. The program proved an interesting one. A. A. Kirchman, "Doc" Vainland, Ingham and Louis Salmons of the Belle Glade club were visitors.

Alabama Men Get A Sample of Lake Okechobee Fish

There are a couple of gentlemen from Alabama visiting in Pahokee who will have real fish stories to tell their friends in Mobile when they return next week. They are Sam Hooks and William O'Conner who are spending the week with J. C. Caffey and his family.

Wednesday afternoon Mr. Caffey called in Frank Bass and Frank Brewer, supposedly fair fish fishermen, and along with Harry McIntosh the six of them journeyed to Chancery Bay to catch a few bass. They did just that. The Alabama visitors stood wide-eyed while Frank Brewer snatched 11 nice ones from their watery habitat. Two of the beauties weighed in the neighborhood of five pounds.

Of course, the 11 fish weren't all that was caught on the trip. Other members of the party report a fair amount of luck and plenty of fish were taken in tow to furnish a delectable fish dinner.
